The carnival was cancelled due to the poor arrangements made by the organization. They failed to provide confirmed information to different schools, and were unable to secure an appropriate venue, indicating a lack of proper planning for the event. In addition, the carnival was cancelled without active notice to our school. Unless our teacher had specifically asked the staff several times, they would not have been informed of the final decision to cancel the event. This lack of communication and transparency is a further cause for concern and reinforces the need to seek alternative options for future events. We must ensure that our school is kept informed and involved in the decision-making process for any future partnerships or collaborations and most importantly future events are organized by a more competent and reliable partner.		✓

The activity effectively created an atmosphere of care on campus, with the messages written by students being very positive. The majority of messages encouraged friends to work hard in their studies and strive for good grades in exams. Some students even wrote cards to their teachers, showing their enthusiasm for participating in and encouraging their friends to join the activity. S.3 Student Guidance Ambassadors (SGA) actively responded on Google Chat, helping to prepare for the event and showing the unity of the SGA. The activity mainly attracted participation from junior forms. In the future, we need to consider how to attract more senior forms to participate.		✓	✓

This recognition serves to positively reinforce and widely acknowledge the character strengths of the students, highlighting their individual qualities and contributions. However, due to the number of items that needed to be distributed from class teachers to parents on Parents' Day, including the award certificates, some parents may not have paid full attention to the character strengths awards. As academic performance is often given greater emphasis, these awards may not have received the recognition they deserve. To address the issue of the character strengths awards not receiving sufficient attention on Parents' Day, it may be necessary to consider distributing the certificates at a separate time period or event. Alternatively, it has been brought to our attention that starting from next year, the school's major concerns will be changing. In light of this, it may be necessary to consider whether this competition will continue in its current form or whether alternative methods of promoting and recognizing students' character strengths should be explored.		✓	✓

More students, especially junior form students took part in the activity compared with last year. Senior form students love taking instant photos with friends and teachers.
