School Vision and Mission

School Vision

The school's aspiration is that our students will always strive for excellence, exemplifying our school vision "Together we nurture fullness of life; Hand in hand we witness the love of Christ."

School Mission

Embracing the HKCCCC philosophy of "To minister and serve through schools", we are committed to the provision of quality education services. We strive to nurture our students by developing their potential and to foster their moral, intellectual, physical, social, aesthetic and spiritual development.

1. Major Concern : To nurture students' motivation for learning by enhancing their reading capabilities

Feedback and Follow-up Summary

According to the APASO data and subject department and Academic Committee (Subjects) reports, student engagement in reading activities needs improvement. The Academic Committee and School Library should develop targeted promotional strategies to increase student awareness and participation. They can create displays of books discussed in sharing sessions and prioritize early planning for interactive reading activities with engaging and innovative elements. Teachers should encourage wider reading practices and maintain oversight of the extended reading program. These strategies will enhance the reading culture within the school and promote a more active learning environment.

2. Major Concern : To foster students' gratitude and empathy through service learning

Feedback and Follow-up Summary

The strategies in the 3-year development plan focus on enhancing service-learning, personal development, and community engagement among students. It includes participation in service learning for all students from Secondary 1 to Secondary 4, with different initiatives for each level. Leadership roles and promoting a culture of collaboration and wellness are also emphasized. Continuous support from form masters/mistresses and related committees is crucial, and reflection activities should be systematically integrated. It is imperative for all student groups to engage meaningfully in service-learning and for follow-up measures to emphasize students reflecting on their experiences to cultivate a lifelong commitment to health.
